LOCATION  
**SAN PEDRO**

WORKS DURATION  
**1095 DAYS**

AREA  
**3,02 KM2**

ESTIMATED COST  
**700 M FCFA**

## PRESENTATION

The city of San Pedro, because of its port activities, its cocoa industry, the exploitation of wood and the factories operating in the flour and cement industries, is the second economic center of Côte d'Ivoire. Located on the edge of the Atlantic Ocean on the southwest coast, San Pedro is 350 km from Abidjan and has an airport that places it just under an hour's flight from Abidjan. Because of its importance in the economic development of the country, and the will of the State to include the education-training sector among its priorities, the city of San Pedro was chosen to host a higher establishment of new generation.

## THE PROJECT'S OBJECTIVES

- Absorb the growing flow of graduates to higher education
- Bring universities closer to target populations
- Offer diversified training, adapted to the needs of the productive sector
- Develop training, research and expertise activities that will have an impact on local development

The University of San Pedro, whose training offer will cover the fields of Marine Sciences, Shipbuilding, Agriculture, Agro-Industry, Fisheries Resources, Building, Public Works, Tourism, Logistics and Medicine, is intended to receive 20,000 students over time.

Located near the village of Goreke and Magne, on the road to Tabou, the site of the University of San Pedro covers an area of 302 hectares.

However, the project will be built on a small area of this hilly landscape area, thereby maintaining the rich biodiversity of the area, and the ecosystem of the shallows.

The development of the university will be done in four phases:

**Phase 1: 3,000 students - Phase 2: 7,000 students  
Phase 3: 15,000 students - Phase 4: 20,000 students**

The first phase, which is the subject of the PPP contract between the State of Côte d'Ivoire and the company Envol Partenariats CI, will make available:

- A Site Heart: grouping together the Reception Hall, the central school, the conference center and the first section of shops and student living spaces;
- A University Library;
- The Presidency and the central administration welcoming the PC security on its premises;
- The medical center;
- A university restaurant;
- Teaching spaces (amphitheatres, tutorials and practical work rooms);
- Educational and research support spaces;
- Sports spaces;
- The first part of the logistics premises;
- The CROU central concierge;
- A residence for teachers, researchers and university staff;
